Professional Summary

Final-year B.E. CSE (AI & ML) student with hands-on experience in machine learning, full-stack development, and computer vision. Proficient in Python and JavaScript stacks with practical knowledge of AI-powered applications. Proven ability to build functional, responsive systems and collaborate effectively in teams.

Technical Skills

Programming	Python, HTML, CSS, JavaScript, MongoDB
Frameworks	Flask, TensorFlow, OpenCV
Tools	Git, GitHub, Jupyter, Google Colab, REST APIs, VS Code
Soft Skills	Time Management, Adaptability, Creative Thinking, Team Collaboration

Relevant Coursework

Machine Learning, Deep Learning, Computer Vision, Data Structures & Algorithms

Experience

AI & Data Analytics Intern — Edify Techno Solutions Jun 2024 – Jul 2024

- Data preprocessing and model training for real-world datasets.
- Assisted in deploying AI models with API integration.

Artificial Intelligence Intern — Acmegrade Jan 2024 – Feb 2024

- Built ML pipelines for classification tasks, improving efficiency and accuracy.
- Implemented Python-based automation for dataset handling.

Projects

Art Style Transfer — Python, CycleGAN, Flask: Developed a system converting photos into artistic styles using CycleGAN, deployed as a web interface.

Speech Emotion Recognition — Python, Librosa, TensorFlow: Built a model to detect emotions from speech input using feature extraction and classification.

Gesture-Based Control System — Python, OpenCV, TensorFlow: Created a gesture recognition interface enabling webcam-based app control with 80%+ accuracy.

Education

Jerusalem College of Engineering, Chennai — B.E. CSE (AI & ML) 2022–2026 (Expected)

Certifications

Winner — Hackathon 2025, AM Jain College
Workshop: AI - The Next Frontier (Hands-on Python and AI Models)
Attendee — Kurukshetra '24 Tech Festival

Achievements & Leadership

Hackathon 2025 Winner (AI Project)
Active participant in tech fests and coding events
Organized team projects and workshops
